6:30 pm – 7: 15 pm FMEA and it's use; Part 2 by Larry Litke

Biography – Larry Litke

I have over 40 years in the quality management field. I have worked in the steel forging, machining of aluminum and brass, rubber product manufacturing and fiberglass product manufacturing including resin injection molding fields during my career. I have extensive knowledge of IATF 16949, ISO 14001, and ISO 9001:2015. I have been an internal and external auditor including 3rd party auditing for ISO 9001. Along with quality management consulting I also provide internal auditor training, conduct internal audits for companies, and along with technical writing I provide the associated training including FMEAs, Risk Management and 5S. I enjoy the education of and assisting companies to improve and succeed in their chosen quality management system.
